

## Web Developer

### Overview

Cross & Crown is looking to hire an experienced Web Developer to add to our team in Chambersburg, PA. We are a small group of creatives who thrive on building relationships – approaching every project with care and creativity, and applying strategic design to help our clients do better.

The primary role of our Web Developer is to take handcrafted designs and translate them into code on our platform of choice, WordPress. Technical support and troubleshooting are also naturally interwoven into new, ongoing, and past projects.

### What you can expect from us:

- An open, friendly work environment
- A dynamic, supportive company culture
- A wide range of client types and project sizes
- A culture respectful of family time and commitments
- Compensation based on experience
- Short term disability
- Paid time off
- Access to a well stocked coffee bar

### What we can expect from you:

#### *Experience & Ability*

- A minimum of 2-3 years professional experience
- A degree in Computer Science
- Specific skills we are looking for include:
  - PHP, HTML/CSS, Javascript are a must
  - Experience with Laravel, Angular or VueJS is a plus
- You are extremely detail-oriented and very comfortable working independently

- You are trustworthy and reliable
- You are committed to doing your job to the best of your ability

**What your day might look like:**

*Practical application of skills*

- Monitoring and handling support tickets that come in periodically through our support system
- Quoting and coding small to medium scale enhancements to previously developed WordPress websites (legacy clients)
- Coding custom, pixel-perfect themes for new WordPress websites
